

Servizi > Guide e razionalizzazione DPI

Siamo in grado di progettare GUIDE AZIENDALI realizzate con schede singole degli articoli utilizzati dal Cliente, contenenti informazioni tecniche, commerciali e istruzioni d'uso, in collaborazione con l'RSPP. La scheda standard contiene per ciascun DPI utilizzato:

- > immagine
- > descrizione estesa
- > marca e modello
- > categoria di rischio
- > normativa
- > cod. articolo aziendale *
- > mansione*
- > norme di utilizzo*
- > dotazione e periodicità*

I dati (*) sono forniti dal Cliente.

È possibile inserire altri dati richiesti dal Cliente, come sede d'utilizzo, classe di operatori, tabelle sinottiche di riepilogo etc...

Le Guide possono essere stampate in formato Pocket (14x11 cm) affinché possano essere distribuite a tutto il personale operativo, facilitando l'informazione e la formazione del personale stesso, come prescrive la vigente normativa; facilitando e razionalizzando gli ordini ai fornitori, il controllo in entrata e i prelievi interni. Il file pdf della Guida può anche facilmente essere inserito nella Rete Aziendale del Cliente.

Manuali d'uso per facilitare gli operatori
